cranges and 21 carloads of lemons. In the same time last year the shipments were 1988 carloads of entages and 65 carloads of lemons. The total shipments for April last year were 4160 carloads of cranges and 197 carloads of lemons. The receipts of Callfornia oranges in this marker have been 140,456 boxos as far in April, against 277,984 hoxes for the same time last year and 247, 408 boxos for the whole of April last year. The receipts from other sources since April 1 have been: Valencia, 2500 cases; frair 1 have been: Valencia, 2500 cases; frair 1 have been valencia, 2500 boxos, for the same period last year the receipts and 840 boxos, and Florida, 2500 boxos. For the same period last year the receipts were litity, 5800 boxes. Jamaica, 3600 barrels and 10000 boxos and Florida, 21,350 boxos. Taste is a decrease of 94,000 packages this year compared with last. compared with last,

50 per cent above present values. Most of the dealers are carrying some high priced white beans of previous sensen and this makes them very cautious about operating at present at any figure. Limas are a so quotably lower and are slow at the decline. Colored kinds are not meeting at the mement with any very active demand at full corrent rates, but are more readily salable than white beans, and values are being much better maintained on colored than on white descriptions. Black even continue to be firmly held under very limited offerings.

Concerning canned fruits California ad vices state: "For canned fruits the market s inactive and holders show considerable nefination to shade prices in order to ob tain trade. The new crop promises to be large, and a thorough clean-up is desired. For canned vegetables the market is active Lecally several brands of tematoes have undergone a slight advance, and still further improvement in expected. The cannels have so far not been affected downweement has prevailed, retirity and upward prices and with the progress of the second with also be completed by June 1. The plant will have a capacity of 100,000 cases. Foster Bros. canners at Trement will also be completed by the opening of the season. The building of the canners, at East Napa will be under way in a short time. Asparagua packing has commenced here, and reports state that the crop is somewhat lighter than usual." Locally several brands of tomatoes have

The large New Orleans estimate for tomor-

shie to effect any engagements on the present basis.

The summary of the weekly weather report was as follows: "The cotton States have experienced a very favorable week and cotton planting has made rapid progress in all sections, being practically finished in Texas. Much of the early planted throughout the cetton belt is up to good stands and cultivation is well advanced.

We again strongly urge our friends against trading in the old crop months either way, but we think the new grop months are a purchase on all weak periods as there is less risk, owing to the large discounts, and any set-back will occasion a material enhancement in these positions,

R. B. Morris & Co.'s Letter,

Houston, Texas, April 29.-Liverpool started the market on the down turn this morning by a disappointing set of cables. Futures showed a loss of 1 to 3 points, whereas they should have been a further gain in view of the closing in the American mar-kets yesterday. Spots were unchanged on POULTRY AND EGG

sales of 10,000 bales. Southern markets were generally quiet to day, though prices were well maintained, The market was on a light scale as compared with last year, while the estimates for temorrow showed a considerable decrease for both Galveston and Houston, amounting to 65 per cent. The weather report issued at noon was favorable, uting that ample progress was being made in plasting, and that control was generally caming up to favorable stands.

The weak cables, together with the reaching of stop loss orders and the call for larger margins on the part of brokers, caus of prices to give was suppert at times which caused slight reactions, but these were only temporary.

The market will likely show a further reaction. There has been no change in underhing conditions, but the market needs a speculative reaction to put it in healthy condition. Should there be any untoward developments in the crop situation the market would show a handsome gain.

R. B. Morris & Co. pared with last year, while the estimates

Richard Cooke & Co.'s Letter. Houston, Texas. April 20. The extithat of one year ago, while New Orleans untion looked steady until the liquidation was over and it is only recently that the sources of supply for storage purposes and set in. The worket sold off 17 points from new crop hus had time to, make its ad- the outlook for heavy accumulations is very the highest. July in New York at 9.43 and

NEW YORK COTTON

Opened Steady 2 to 7 Points Lower and Declined. New York, April 20. The cotton market opened steady 2 to 7 points lower, this be-000 ing an indifferent response to weak Liverpool cables and general port receipts, but 300,000 by 10:30 the whole market had been bid up with July 9:60 or within 5 points of 300,000 last night's close. Nevertheless, the con-2,500,000 servative members of the trade noticed that outside supporting orders were not as strong as of tate, while many longs were selling for profits. Liverpool made a feeble effort to conform to the strength here, but soon suffered a relapse and closed net I to 20 points lower, with the tone easy. Mapping that have weak London Interests existed and that a sharp break was at and prompted selling for both accounts during the rest of the early seasion. By middy July was off to 9.00 with the market heavy. Then came a very bearish weekly crop and weather report and a tremendous estimate for tomerrow's receipts at New Orleans. These influences started argent unleading of long cellon and not until July had broken to 9.43 was there sufficient buying aroused to check the dewnward rush. For the rest of the day the market was irregular, though disposed to rally, some covering and new buying.

The close was steady with prices net, 5 to 15 points lower. Firm spot market news and strength in futures at New Orleans helped the late market here. strong as of late, while many longs wer American Brewing Asa'n
